

## Thermal Resistivity properties for

INSUduct®

SHallooduct™

As derived from WRAS official template

To be used with any submission to a water company under Regulation 5 of Water Industry (Water Fittings) Regulations

1	Pipe material	Plastic
2	External Diameter	25mm
3	Internal Diameter	22mm
4	Air Temperature	- 10C
5	Water Temperature	+ 4C
6	Ice Formation	50%
7	Emissivity	zero
8	Insulation Thickness	40mm
9	Insulation Performance	0.025
10	Total protection	15:10 Hours
