

NRv²®

Protecting water networks

NRv² is a simple solution to remediate any boundary box with a failed check valve.

- Facilitate whole site protection against backflow up to fluid Category 3
- Can be fitted into any pre-installed boundary box
- Simple installation between the water meter and the manifold
- Remediates failing boundary boxes without expensive excavation
- Patented fitting meets all required standards and Reg 4 approved

All Groundbreaker products are made in accordance with, or to exceed statutory regulation and manufactured using low impact, 'green' methods where practical.

Our aim is to assist the industry and provide water to the community while minimising the impact to the environment.

Groundbreaker - helping the water industry towards Net Zero!
